

FASTFIT

1712 N95 Flat Fold Respirator & Surgical Mask

From Folded To Face In A Flash

Unlike any other flat fold, FastFit opens quickly and seals easily to your face in a flash. No fumbling with multi fold panels or hard to handle straps. FastFit is the quickest and easiest flat fold to put on.

Folded And Molded

FastFit combines the convenience of a flat fold with the comfort of a contour molded mask. The best of both worlds are now combined in a flat fold mask that opens easily and conforms comfortably to your face. Plus, it's simple to refold a FastFit mask for storage in a scrubs pocket. Designed with healthcare workers in mind.

Packaged For Convenience

Individually wrapped for hygiene, it'll be handy and clean when you need it. Packed in a dispenser-style box for quick and easy access.

Easy Fit, More Comfort

Contour molded nose bridge with a soft foam nose cushion provides the wearer an easy comfortable fit. Softspun® lining gives added comfort and durability. There's no metal noseband to adjust and the seal is maintained without pressure points.

Last Longer, Use Fewer

The Dura-Mesh® shell, exclusive to Moldex, protects the filter media so it stays cleaner-looking longer. The shell resists collapsing, even in heat and humidity so the respirator holds its shape longer, resulting in fewer respirators used and lower costs.

Secure No Fumble Straps

Easy to handle elastic straps don't irritate or require pre-stretching. Securely attached for durability. Not manufactured with natural rubber latex.

Applications

Surgery, hospitals and healthcare facilities, nurse/hospice care, correctional facilities, police, fire and rescue teams, EMS/EMT, homeless shelters, occupational health facilities, school healthcare offices. Note: For use with non oil based particulates only.

1712 N95 FLAT FOLD DISPOSABLE RESPIRATOR

- Quick and easy to put on, unlike any other flat fold
- Flat fold convenience with contour molded comfort
- Individually packaged for hygiene
- Packed in a dispenser box for easy access
- Molded nose bridge with soft foam nose cushion increases comfort and seals easily without a metal noseband
- Softspun® lining for increased comfort
- Exclusive Dura-Mesh® shell resists collapsing in heat and humidity
- Meets CDC guidelines for protection against TB
- Highest ASTM level of fluid resistance on the market (160mm Hg)
- Not manufactured with natural rubber latex
- Bacterial filter efficiency >99.9%
- Meets heat and flame resistance in accordance with ANSI/ISEA 110-2003 Section 7.11.1
- NIOSH certified to have a filter efficiency of 95% or greater for non-oil based particulates

IMPORTANT NOTICE TO USERS

You are responsible to understand and follow all warnings, restrictions and other information on the box before you enter a contaminated work area. Failure to do so may result in sickness or death.

DESCRIPTIONS

1. The Moldex Healthcare Series N95 Particulate Respirator and Surgical Mask is designed to help provide respiratory protection for the wearer. This product has been tested¹ and certified by NIOSH as an N95 respirator and as having a filter efficiency level of 95% or greater against particulate aerosols free of oil. It is fluid resistant², disposable and may be worn in surgery or throughout the hospital.
2. This product contains no components made from natural rubber latex.

INTENDED USE

The model 1712 Moldex-Metric Type N95 Healthcare Particulate Respirator and Surgical Mask meet CDC Guidelines for TB Exposure Control within healthcare facilities. This device is also intended to be worn by healthcare personnel during surgical procedures to protect both the patient and healthcare personnel from the transfer of microorganisms, body fluids and particulate material.

CONTRAINDICATIONS

1. Not for use with beards, or other facial hair that prevents direct contact between the face and sealing surface of the respirator.
2. Eyewear must not prevent direct contact between the face and sealing surface of the respirator.
3. Not to be used on children.

¹ Tested in accordance with NIOSH 42 CFR 84

² Passed ASTM F 1862 @ 160mm Hg

RESTRICTIONS

1. Before use, a written respiratory protection program in accordance with 29 CFR 1910.134 must be implemented.
2. This respirator does not supply oxygen and must not be used in atmospheres containing less than 19.5% oxygen.
3. Prior to each use, carefully inspect the entire respirator, including filter media and strap attachment area for tears and damage. Staple or strap attachment perforations do not affect NIOSH approval.
4. If respirator is damaged, distorted, a proper fit cannot be obtained or breathing becomes difficult, leave contaminated area as soon as possible and replace respirator.
5. If the respirator comes in contact with blood or fluids, including body fluids, leave contaminated area as soon as possible and discard and replace the respirator.
6. Do not alter, modify or abuse this respirator.
7. Store unused respirators in box/ bag in a clean, dry, non-contaminated area.
8. Dispose of respirator according to your employer's policy and local regulations.
9. Do not reuse or store for reuse or hang around neck unless your employer specifically authorizes reuse.
10. When used for surgical procedures, discard after every use.
11. Use respirator before the "use by" expiration date printed on box/bag.

WARNINGS TO USER

1. Straps used in the headbands of these respirators are not manufactured with natural rubber latex. However, individuals highly sensitive to natural rubber latex may have an allergic reaction.
2. This product does not eliminate the risk of contracting any disease or infection. Change immediately if the respirator comes in contact with blood or fluids, including body fluids. OSHA has not set a permissible exposure level for airborne biohazards.
3. This product has not been sold with warning or use instructions for personnel involved in industrial or related situations. If you are considering such uses, first contact the Moldex Technical Services Department at +1 (800) 421-0668 or +1 (310) 837-6500, ext. 512/550.

TECHNICAL SERVICE LINE

Moldex maintains a toll-free Technical Service Line to answer questions about the use of Moldex respirators, contaminants and regulations. If you have any questions call +1 (800) 421-0668 or +1 (310) 837-6500, ext. 512/550.
